

## Art.40 - Belling 2 heads

Hydraulic working machine for cold forging and revenue of slots for circular shapes of male and female type on rigid pipes and fittings for flexible hose.

The dual head allows for faster production by reducing setup operations for the creation of the graft male and female on each piece without the cost of 2 belling with 1 head.

- PLC system
- Heavy electro welded steel structure.
- Milled support plate.
- Hydraulic device with motor, pump and heat exchanger.

- Hydraulic rolls for pressing (2 side rolls to close external tool, central for expansion internal tool).
- Dimensions: mini Diameter. 80 mm – max. Diameter. 400 mm.
- Working speed: in 20 seconds about 160 pieces an hour.
- Complete substitution tools and regulations in about 10 minutes.
- Thickness: from 0,5 to 0,7 mm – material stainless steel.
- Die: building of shape by matrix and counter matrix.
  
- CE Marks and Declaration of Conformity
- Dimensions: L 2800 mm – P 1200 mm – H 1000 mm.
- Power supply: 380 Volt – 3 phases – 50 Hz.
- Power 5 Kw.
- Weight: Kg. 1100.
